Buffalo Bill's Wild West Show: A Global Phenomenon

Buffalo Bill's Wild West Show was a traveling exhibition that toured the United States and Europe from 1883 to 1913. The show featured cowboys, Indians, and other performers who reenacted scenes from the American frontier. The show was a huge success, and it helped to popularize the American West around the world.

The Wild West Show was created by William Frederick Cody, better known as Buffalo Bill. Cody was a former buffalo hunter and army scout who had become a national celebrity after his role in the Battle of the Little Bighorn. Cody assembled a cast of characters for his show that included cowboys, Indians, sharpshooters, and trick riders. The show also featured a variety of animals, including buffalo, horses, and elephants.

Book Review: "The Wyoming Frontier" by T.A. Larson

"The Wyoming Frontier" by T.A. Larson is a comprehensive history of Wyoming from its earliest days to the present. Larson's book is well-written and well-researched, and it provides a detailed and informative account of Wyoming's history.

Larson begins his book with a discussion of the Wyoming Territory's creation in 1868. He then goes on to discuss the territory's early history, including the arrival of the first settlers, the development of the livestock industry, and the construction of the transcontinental railroad.

Larson also discusses Wyoming's role in the American Civil War, the Indian Wars, and the Spanish-American War. He also provides a detailed account of Wyoming's statehood movement and the state's early years.

"The Wyoming Frontier" is a valuable
