## Percussion Instruments

Percussion instruments are a diverse group of instruments that produce sound when struck or shaken. They come in all shapes and sizes, from the delicate chimes of a triangle to the thunderous boom of a bass drum.

Percussion instruments can be used to create a wide range of musical effects, from subtle accents to driving rhythms. They are often used in Christmas music to add a festive touch, such as the jingle bells in "Jingle Bells" or the tambourine in "The First Noel".

## **Types of Percussion Instruments**

There are many different types of percussion instruments, but some of the most common include:

- **Drums:** Drums are the most popular type of percussion instrument. They come in a variety of sizes and shapes, and they can be played with sticks, brushes, or mallets.
- **Cymbals:** Cymbals are metal discs that are struck together to produce a bright, shimmering sound. They are often used in drum kits and marching bands.
- **Shakers:** Shakers are small, handheld instruments that are filled with beads or seeds. They are shaken to produce a rhythmic sound.
- **Tambourines:** Tambourines are frame drums that have jingles attached to the rim. They are often used in folk and world music.
- **Triangles:** Triangles are metal triangles that are struck with a beater to produce a high-pitched, ringing sound. They are often used in orchestras and marching bands.

## **Drum Bass**

Drum bass is a genre of electronic dance music that is characterized by its heavy use of bass drums and percussion. It is often associated with the rave scene and is popular in clubs and at festivals.

Drum bass can be created using a variety of different instruments, including drum machines, synthesizers, and samplers. It is often characterized by its fast tempo, driving rhythms, and repetitive basslines.

## **Auxiliary Instruments**

Auxiliary instruments are instruments that are used to supplement or enhance the sound of other instruments. They can include a wide range of instruments, such as keyboards, guitars, and wind instruments.

Auxiliary instruments can be used to add a variety of different sounds to Christmas music, such as the lush harmonies of a piano in "Silent Night" or the ethereal sound of a flute in "The Christmas Song".

## **Types of Auxiliary Instruments**

There are many different types of auxiliary instruments, but some of the most common include:

- **Keyboards:** Keyboards are electronic instruments that can be used to produce a wide range of sounds, including pianos, organs, and synthesizers.
- **Guitars:** Guitars are stringed instruments that are played by strumming or plucking the strings. They are often used in folk, rock, and pop music.
- **Wind instruments:** Wind instruments are played by blowing air through a mouthpiece. They include a wide range of instruments, such as flutes, clarinets, and saxophones.
